

Four Year Attainment and Progress Trends

The trends in data need to be taken in the context of the COVID pandemic lockdowns:

- *The 2020 data is using our internal standardised assessment from March 2020 just before the national lockdown. So, what the children were 'on track to get'.
- **The 2021 data is using our internal standardised assessment in July 2021. So, what the children are 'likely' to have got if there had been national assessments.

Note: Our internal assessments are very similar to the national assessment papers or use previous national assessments as part of the testing.
